Hi Annie,  
I will respond in the next day regarding wetland maps. Are you looking for something more than what is in the DEIS?  
What level of detail?

As of today, we don't have a compensatory mitigation plan to send you. We have work to do on that. The National Park service has expressed interest in mitigation on their lands.

Subject: [Non-DoD Source] Additional project information with 404 app

Hi John,

Glad you guys were able to get the Ambler PN out for review. I was hoping that additional wetland delineation information, including maps would be made available, as well as a compensatory mitigation plan. To ensure we have an adequate period of time to review these materials during the comment period, it'd be best to see these as soon as possible.

Thanks for your help. Please let me know if I've overlooked these materials available elsewhere.
